
djongo Documentation

Release 1.2.24

nesdis

Apr 15, 2018

Contents:

1	djongo package	1
1.1	Subpackages	1
1.2	Submodules	2
1.3	djongo.base module	2
1.4	djongo.compiler module	2
1.5	djongo.cursor module	2
1.6	djongo.database module	2
1.7	djongo.features module	3
1.8	djongo.introspection module	3
1.9	djongo.operations module	3
1.10	djongo.schema module	4
1.11	Module contents	4
2	Indices and tables	5
	Python Module Index	7

1.1 Subpackages

1.1.1 django.dynamic_formsets package

Subpackages

django.dynamic_formsets.templatetags package

Submodules

django.dynamic_formsets.templatetags.formset_tags module

Module contents

Submodules

django.dynamic_formsets.apps module

```
class django.dynamic_formsets.apps.DynamicFormsetsConfig(app_name, app_module)  
    Bases: django.apps.config.AppConfig  
    name = 'dynamic_formsets'
```

Module contents

1.1.2 django.models package

Submodules

django.models.fields module

Module contents

1.1.3 django.sql2mongo package

Submodules

django.sql2mongo.converters module

django.sql2mongo.operators module

django.sql2mongo.query module

Module contents

1.2 Submodules

1.3 django.base module

1.4 django.compiler module

```
class django.compiler.SQLCompiler(query, connection, using)  
    Bases: object
```

1.5 django.cursor module

1.6 django.database module

```
exception django.database.DataError  
    Bases: django.database.DatabaseError  
  
exception django.database.DatabaseError  
    Bases: django.database.Error  
  
exception django.database.Error  
    Bases: Exception  
  
exception django.database.IntegrityError  
    Bases: django.database.DatabaseError  
  
exception django.database.InterfaceError  
    Bases: django.database.Error
```

exception `djongo.database.InternalError`

Bases: `djongo.database.DatabaseError`

exception `djongo.database.NotSupportedError`

Bases: `djongo.database.DatabaseError`

exception `djongo.database.OperationalError`

Bases: `djongo.database.DatabaseError`

exception `djongo.database.ProgrammingError`

Bases: `djongo.database.DatabaseError`

`djongo.database.connect` (***kwargs*)

1.7 djongo.features module

class `djongo.features.DatabaseFeatures` (*connection*)

Bases: `django.db.backends.base.features.BaseDatabaseFeatures`

has_bulk_insert = `False`

has_native_uuid_field = `True`

supports_transactions = `False`

1.8 djongo.introspection module

class `djongo.introspection.DatabaseIntrospection` (*connection*)

Bases: `django.db.backends.base.introspection.BaseDatabaseIntrospection`

SAMPLE_SIZE = `1000`

TYPE_MAPPING = {<class 'int'>: <class 'bson.int64.Int64'>}

data_types_reverse = {<class 'list'>: 'ListField', <class 'datetime.datetime'>: 'DateField'}

get_constraints (*cursor, table_name*)

get_indexes (*cursor, table_name*)

get_key_columns (*cursor, table_name*)

get_relations (*cursor, table_name*)

get_table_description (*cursor, table_name*)

get_table_list (*cursor*)

1.9 djongo.operations module

class `djongo.operations.DatabaseOperations` (*connection*)

Bases: `django.db.backends.base.operations.BaseDatabaseOperations`

adapt_datefield_value (*value*)

adapt_datetimefield_value (*value*)

adapt_timefield_value (*value*)

```
convert_datefield_value (value, expression, connection, context)  
convert_timefield_value (value, expression, connection, context)  
get_db_converters (expression)  
max_name_length ()  
no_limit_value ()  
quote_name (name)  
sql_flush (style, tables, sequences, allow_cascade=False)
```

1.10 django.schema module

```
class django.schema.DatabaseSchemaEditor (connection, collect_sql=False, atomic=True)  
    Bases: django.db.backends.base.schema.BaseDatabaseSchemaEditor
```

1.11 Module contents

CHAPTER 2

Indices and tables

- `genindex`
- `modindex`
- `search`

d

- `django`, 4
- `django.compiler`, 2
- `django.database`, 2
- `django.dynamic_formsets`, 2
- `django.dynamic_formsets.apps`, 1
- `django.dynamic_formsets.templatetags`, 1
- `django.features`, 3
- `django.introspection`, 3
- `django.operations`, 3
- `django.schema`, 4

A

adapt_datefield_value() (django.operations.DatabaseOperations
method), 3
 adapt_datetimefield_value()
 (django.operations.DatabaseOperations
method), 3
 adapt_timefield_value() (django.operations.DatabaseOperations
method), 3

C

connect() (in module django.database), 3
 convert_datefield_value()
 (django.operations.DatabaseOperations
method), 3
 convert_timefield_value()
 (django.operations.DatabaseOperations
method), 4

D

data_types_reverse (django.introspection.DatabaseIntrospection
attribute), 3
 DatabaseError, 2
 DatabaseFeatures (class in django.features), 3
 DatabaseIntrospection (class in django.introspection), 3
 DatabaseOperations (class in django.operations), 3
 DatabaseSchemaEditor (class in django.schema), 4
 DataError, 2
 django (module), 4
 django.compiler (module), 2
 django.database (module), 2
 django.dynamic_formsets (module), 2
 django.dynamic_formsets.apps (module), 1
 django.dynamic_formsets.templatetags (module), 1
 django.features (module), 3
 django.introspection (module), 3
 django.operations (module), 3
 django.schema (module), 4
 DynamicFormsetsConfig (class
 in django.dynamic_formsets.apps), 1

E

Error, 2

G

get_constraints() (django.introspection.DatabaseIntrospection
method), 3
 get_db_converters() (django.operations.DatabaseOperations
method), 4
 get_indexes() (django.introspection.DatabaseIntrospection
method), 3
 get_key_columns() (django.introspection.DatabaseIntrospection
method), 3
 get_relations() (django.introspection.DatabaseIntrospection
method), 3
 get_table_description() (django.introspection.DatabaseIntrospection
method), 3
 get_table_list() (django.introspection.DatabaseIntrospection
method), 3

H

has_bulk_insert (django.features.DatabaseFeatures attribute), 3
 has_native_uuid_field (django.features.DatabaseFeatures
attribute), 3

I

IntegrityError, 2
 InterfaceError, 2
 InternalError, 2

M

max_name_length() (django.operations.DatabaseOperations
method), 4

N

name (django.dynamic_formsets.apps.DynamicFormsetsConfig
attribute), 1
 in no_limit_value() (django.operations.DatabaseOperations
method), 4

NotSupportedError, 3

O

OperationalError, 3

P

ProgrammingError, 3

Q

quote_name() (django.operations.DatabaseOperations
method), 4

S

SAMPLE_SIZE (django.introspection.DatabaseIntrospection
attribute), 3

sql_flush() (django.operations.DatabaseOperations
method), 4

SQLCompiler (class in django.compiler), 2

supports_transactions (django.features.DatabaseFeatures
attribute), 3

T

TYPE_MAPPING (django.introspection.DatabaseIntrospection
attribute), 3
